Aromatherapy Massage

Aromatherapy is a modern name for the ancient knowledge of healing and improving health using fragrant, natural ingredients.

The aromatic oils extracted from plants are administered through massage.

Each oil has its own unique medicinal properties which can be used to treat specific problems or to improve health generally and alleviate stress and anxiety.

Reiki

Reiki is a healing system which allows you to heal yourself and others by the laying on of hands. Reiki is pronounced "ray-key". *Rei* means universal, and *Ki* means spirit, energy or life force. Reiki works on and at all levels, Spiritual, Physical, Emotional and Mental. The healing energy is drawn through the healer's body.
