## **PET PATHOGEN CLEANSE**

Most pet owners cleanse their pets of worms and other internal parasites once or twice per year using treatments that are full of harsh chemicals, which sometimes make them violently sick. Why do we worm them so infrequently and use these harsh treatments, when our pets are exposed to parasites daily? Surely it would be better to treat them continually and with natural ingredients! I have found a very mild and 100% natural treatment, containing the green Hull of Black Walnut, Cloves and Wormwood (a plant that yields a bitter extract). It has had fantastic results, including eradicating eczema, dispersing cysts, improving coat condition and producing stronger, healthier litters.

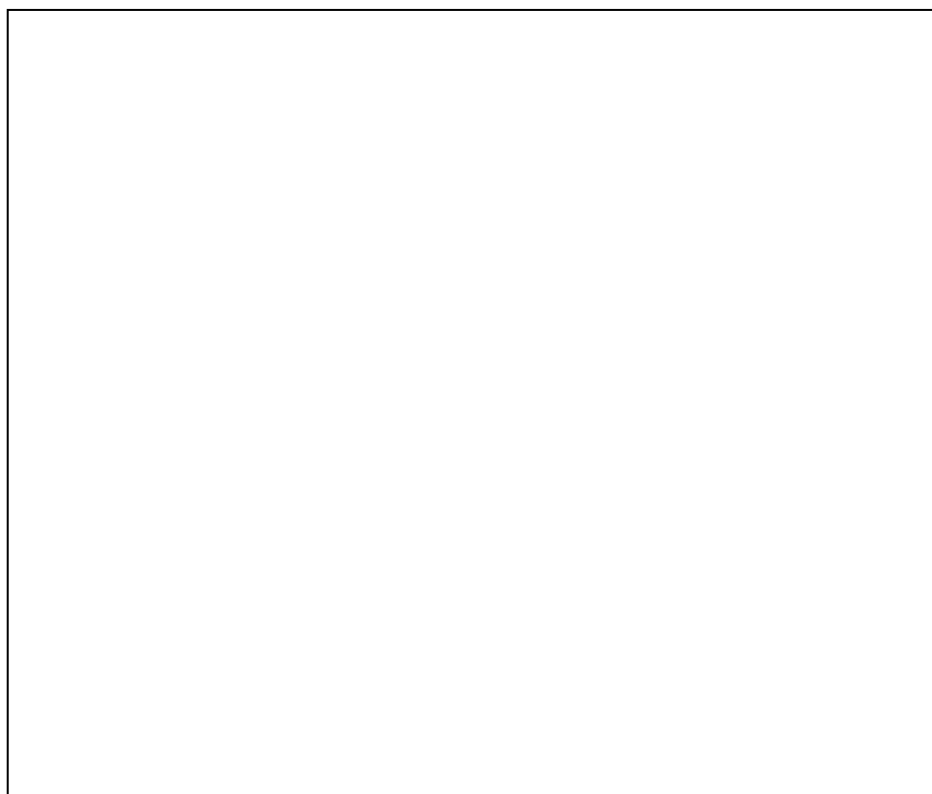

The programme is outlined below and is in two stages, implementation and maintenance.

### **Implementation Programme**

Day	Combination Capsules
1	1 twice per day
2	2 twice per day
3	3 twice per day
4	4 twice per day
5	5 twice per day
6	5 twice per day
7	5 twice per day
8	5 twice per day
9	5 twice per day

### **Maintenance Programme**

Day	Combination Capsules
10 onwards	1 capsule per day
